PROFESSIONAL SUMMARY

Innovative Computer Science and Engineering student specializing in Machine Learning and Artificial Intelligence, with a strong dual focus on UI/UX and Brand Identity Design. Passionate about leveraging data-driven ML models and translating complex concepts into intuitive user experiences and compelling visual designs. Experienced in building practical AI models, full-stack web development, and creating cohesive visual identities for organizations.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, HTML/CSS.

Machine Learning & AI: NumPy, Pandas, Scikit-learn, Streamlit, Computer Vision, Predictive Modeling, QSVM.

Web & DevOps: React.js, Node.js, Express.js, MongoDB, REST API Design, Git, GitHub, Docker, CI/CD.

OTHER SKILLS

- Graphic Design:** Visual communication, digital promotional collateral, advanced photo manipulation, typography, and color theory.
- Brand Design:** Brand identity development, comprehensive brand guidelines, and organizational visual strategy.
- UI/UX Design:** User-centric interface prototyping, wireframing, accessibility optimization, and interactive experience design.

RESEARCH & PUBLICATIONS

"Quantum Support Vector Machine-Based Approach for Fruit Ripeness"

- Presented in International Conference on Computing and Communication (ICCCDC) 2025.
- Authored and published research exploring the application of quantum-enhanced machine learning techniques to accurately classify and evaluate fruit ripeness.
- Published via Springer Link:** (DOI: 10.1007/978-3-032-18470-2_46)

PROJECTS & EXPERIENCE

- MNIST Image Classification Model:** Developed and trained a machine learning model utilizing the MNIST dataset to accurately identify and classify handwritten digits, optimizing for high accuracy. Remote
- Unsupervised Filter Model:** Engineered a filtering and clustering model using unsupervised learning algorithms to process raw, unlabeled data and extract meaningful underlying patterns. Remote

EDUCATION

Haldia Institute of Technology, West Bengal
B.Tech in Computer Science and Engineering (3rd Year)

2024-2028
CGPA: 8.79/10

COLLEGIATE LEADERSHIP & DESIGN EXPERIENCE

- Technical Member at ACM Student Chapter:** Built cohesive brand guidelines and designed intuitive user interfaces for technical projects, emphasizing accessibility and modern typography.
- Senior Graphic Designer at Collegiate Chess Club:** Conceptualized and executed digital promotional campaigns and advanced visual branding, including complex structural photo manipulations that integrated thematic 3D elements into real-world campus architecture.
